Dear Mr Clark

**Re: Henley College Sports Hall**

A C Lloyd Builders have just completed works to the new sports hall on our Henley-in-Arden College site.

I would like to take this opportunity to thank your construction team who have carried out the work in such a professional and diligent manner.

It is always good to work with a company who have such a proactive and innovative approach to ensure the smooth running of a project.

The project was completed within budget and on programme that is essential when planning inside an educational establishment.

The students absolutely love the facility and with the current bad weather it is certainly getting plenty of use.

Many thanks and I look forward to working with your company again on a future scheme.

Yours sincerely

C J Paget  
Estates Director
